The company name “ABeam” represents the determination of the firm, having two meanings:

Originally out of “Asian Beam”, to be a continuing and powerful global consulting firm with an Asian heritage.

In addition, the term “abeam” in sailing means fast forward movement driven by a side wind.

Our corporate name and identity is our business philosophy:

Use the maximum drive available and support our clients’ business toward success.

Seeking to Become a “Real Partner” that Assists Clients in Pursuing Global Business Development

Over the past three decades since the establishment of ABeam Consulting in April 1981 as a global consulting firm based in Asia, we have continued to expand our global network while providing high valued-added consulting services that assist our clients in expanding their business operations on a global basis.

Since the founding of the firm, every consultant at ABeam Consulting has been striving to provide consulting services that make us a “Real Partner” for our clients. No matter how difficult the challenge or how long the process, we thoroughly examine our clients’ operations to enable them to achieve their goals, based on our extensive experience and knowledge accumulated through serving clients operating in every industrial sector. Then to each client, we deliver the best practices, taking account of the different cultural aspects and business customs of each country and locality.

It is our policy to continue to work closely with each client with a sense of commitment on a long-term basis to ensure that the best practices are integrated into its operations.

We will continue to serve as the one-and-only “Real Partner” for our clients with the aim of assisting such clients pursuing business operations in Asia, as well as on a global basis, in delivering increased value.

Our Vision
Once a partner and forever after we shall be your Real Partner. Asian in origin but global in scope, we are not bound by any one stereotypical globalization strategy. Instead, we take the utmost advantage of the characteristics of our clients and locale.

Our Mission
We bring success to our clients, continuously contribute toward enhancing their corporate value, care for people and deliver results through innovation.

Core Values
With our eye on a common future and sharing the pleasure of success together as a Real Partner, we are honest and passionate in our consulting work as we seek our clients’ real needs for change.

Client Centric  Love for our clients
We are proud of always thinking in terms of what is best for our clients; offering solutions that are not only theoretical but workable.

Professional Excellence  Outstanding Professionalism
We offer services of superb quality based on our accumulated, extensive, and profound knowledge and experience.

Power of Diversity  Respect for Diverse Individuals
We share a corporate culture of mutually respecting individual abilities, and in turn helping one another to grow. Our growth is our clients’ growth.

Collaboration/Collegiality  Team Strength
We have brought together all ABeam Consulting’s individual abilities into our corporate power. In working as a team that includes our clients, we also share a common goal with our clients and take full advantage of each other’s wisdom and experience.

New Global Dimension  Original Global Outlook
We know how to proceed with our business, absorbing all best practices in the world as our own while respecting the locally prevailing value systems.
ABeam Expertise

ABeam Consulting demonstrates its superior expertise in every facet of our business, including Industry Solutions, Service Line and Global & Regional Services. We offer optimal and high-quality solutions to all our clients.

Industry Expertise
ABeam Consulting’s Industry Solutions

Our solutions are supported by our deep insight into various industries and our diversified yet extensive experience acquired over the years from supporting our clients as partners in their business transformation. We offer the industry solutions that address the unique challenges of our clients’ industry and business, and meet their needs in various markets.

Service Line Expertise
ABeam Consulting’s Service Line

Our service line has a lineup of experienced specialists and provides unique and practical comprehensive services in each area, including corporate strategy; business restructuring; and implementing, operating and maintaining IT systems. We solve the challenges faced by our clients with seamless and end-to-end services and vigorously endorse business transformation.

Global & Regional Expertise
ABeam Consulting’s Global and Regional Services

We have a worldwide network of offices, development centers and outsourcing centers and are truly respectful of the intrinsic values and business practices of the respective countries and localities. We provide optimum solutions to our clients in every region and help ensure their global success.
We have accumulated the best practices for the respective industries. Our consultants are knowledgeable of the markets and environment in the respective industries and provide the optimum services through their extensive experience.

Public

Understanding ever-diversifying needs and an ever-changing social fabric. We provide diverse solutions.
Financial & Social Infrastructure

Accurately understanding customers’ needs for transformation,
Providing new business models and solutions.
We contribute to the advancement of society and growth of industry.

Manufacturing & Consumer Business

Achieving stronger competitiveness in global markets,
We provide customers with optimal solutions.
Specialists in each service area form an interdisciplinary team to achieve the desired renovation. Business transformation throughout the entire company is achieved by providing excellent service in an integrated manner.

- AI and OCR robotics integration (paper document processing)
ABeam Consulting has developed a proprietary network utilizing the strengths of being Asia based.

We provide service that fits the local conditions to clients in every region and clients looking for success in the global market.

Building a global business infrastructure requires familiarity with the region in which the infrastructure is to be developed, as well as extensive knowledge of the industry and services. ABeam Consulting provides high value-added service through our unique network by organically combining these elements. At the same time, we ensure uniform business quality at the global level using our proprietary methodology, which has been proven through years of experience. In addition to our unique network, our offshore development centers and strategic alliances with powerful partners in the major regions around the world allow us to provide quality, cost-effective services anywhere in the world.

Global Outsourcing

ABeam Consulting promotes the operation and maintenance of IT systems that support the global expansion of its clients through its outsourcing bases in Japan, China, Malaysia and the U.S., which provide 24/7 support in Japanese, English and Chinese. Amid the increasing demand for outsourcing that provides high-quality yet cost-effective services in the maintenance and operation of IT systems, we provide quality services that meet the cost-cutting needs of our clients through our system of optimal allocation on a global scale.

Global Development Center (GDC)

We carry out the development of ERP systems, custom-made systems and other system construction projects on short schedules and at low cost utilizing our development centers in Shanghai, Xian and Dalian, China. Shanghai GDC has been certified for Maturity Degree Level 5, the highest rank of process evaluation for CMMI® and for ISO27001®. More than 250 staff members have been assigned to constantly improve the software development process and to provide service of high-quality value.

* CMMI® (Capability Maturity Model Integration)
* ISO27001: International standard for information security management
Global Offices

Our offices in Japan, Asia, Europe and North / South America are staffed with many experienced consultants. They are well versed in the laws, business practices, and peculiar business structures of the countries and regions to which they are assigned and understand the local culture and customs, which allows them to provide consulting services that match the business needs of our clients.

Global Network

Alliance Partners

We support the rapid global expansion of our clients through close service cooperation with our alliance partners based throughout the world in Asia, Europe, and North / South America. Working with our major alliance partners, including BearingPoint with operations in 23 countries mainly in Europe, and many others, we provide integrated global services from business transformation consulting to IT services including systems integration, development and operation management for such industries as finance, manufacturing, the public sector, telecommunications and energy.
The uniqueness of ABeam Consulting.
Our extensive experience and accumulated expertise make it possible to achieve real business transformation.

ABeam Method

ABeam Method is a comprehensive methodology unique to ABeam Consulting which covers the entire project lifecycle.

An assortment of seven types of methodology based on a wealth of experience and proven performance in projects both domestic and international, ensures:

- Visibility of complex implementation processes,
- Achievement of homogeneous, high-quality project results,
- Achievement of smooth communications through a common language and understanding.

This is part of the added value we provide to help with our customers’ business transformation.

ABeam Template

ABeam Template is a solution reflecting knowledge and experience gained through numerous projects, comprising business processes, requirements definition documentation and actual operational environments.

This solution provides templates built on three elements: a systematic compilation of business processes based on previous cases, standard documentation produced for projects, and actual full-scale system environments. A rich lineup of templates is available, categorized by topic and industry, including a Demand-Supply Template, a Railway Template and a Commercial Trading Firm Template. This makes it possible to shorten system implementation times compared to using overseas packages or development from scratch. It also provides the flexibility needed to facilitate future system upgrades as desired.

Industry Framework®

Industry Framework® is a business process model differentiated by industry category.

Our business process models differentiated by industry reflect many years’ accumulated know-how, as well as knowledge and experience with numerous industries. These models encompass a broad range of industries such as manufacturing, finance and logistics, enabling us to:

- Efficiently research the current status of business,
- Ensure comprehensiveness relative to current business processes, and
- Promote the optimal future business process design.

These are some of the ways in which we can promptly identify the business processes that are special to an industry and support the customer’s enterprise.
ABeam Cloud® is a business innovation platform that leverages speed and cost to deliver overwhelming value to the customer.

With ABeam Cloud®, the application of industry and business templates speeds implementation of business systems, ensuring timely adaptation to changing business environments. ABeam Cloud not only optimizes cost through the ability to secure resources on demand, it also provides one-stop service, reducing the burden on the customer by making it possible to access experts needed to handle increasingly complex, sophisticated systems.

**Composition of ABeam Cloud®**

- Business Applications
  - ERP
  - Analytics
  - IoT

- Cloud Services
  - Service Applications
  - Security & Monitoring
  - Infrastructure Services
  - Global Networks

- Operation and maintenance services

**Business applications**

ABeam Cloud® provides a rich lineup of business applications to make your business a winner in the digital age.

**Business continuity and evolution**

The lineup of ERP templates using ABeam Template, and business applications optimized for specialized fields, enables total optimization of existing business operations, including business process optimization, business operation streamlining, etc.

**Business creation and innovation**

Our platform in the digital field, encompassing the IoT, customer experience and analytics, accelerates digital business by enhancing customer engagement and providing customer insight.

**Composition of Business Applications**

- **ABeam’s Business Innovation Platform**
  - A specialized application lineup for every business domain

- **ERP Template**
  - ERP templates specially built for each industry

- **Analytics**
  - Reveals unexpected insights buried in massive body of data, to heighten the accuracy of forecasting and improve decision-making

- **IoT**
  - Equips a wide variety of items with data communication capabilities to connect them to the Internet and enable two-way communications, automatic recognition and control, remote measurement, etc.

**Characteristics of ABeam Cloud®**

- **Optimization**
  - The ability to choose from diverse options makes it possible to select the composition optimized for the customer’s requirements. Multifaceted optimization satisfies the full range of requirements, including function, cost, security, etc.

- **Adapting to change**
  - We guarantee application upgrades responding to changes in tax and legal requirements at the template level. This ensures that the latest applications are always in use.

- **One-stop solution**
  - Business applications, cloud services, as well as operation and maintenance services are bundled together, enabling us to provide managed services at the enterprise level.

- **Innovation**
  - ABeam Consulting utilizes state-of-the-art technologies selected with a discerning eye to deliver innovation at every level of business application, and operational and maintenance service.

**Service applications**

ABeam Cloud® provides innovative added value through service applications that run on cutting-edge technology.

ABeam Consulting offers numerous services that use AI and robotic process automation (RPA). Service applications are designed to provide the added value inherent in each of these advanced elemental technologies from a perspective unlike that of business applications. We promptly evaluate new advanced technologies, engaging with them on an ongoing basis in order to provide a business innovation platform that evolves constantly.

**Examples of advanced technology use**

- AI
- RPA
- Prospective analysis
- Cloud optimization
- More sophisticated analysis
- ERP process automation
- Operational process streamlining

**Discernment of new advanced technologies**

- **Technology**
  - Wearable Platforms
  - Mobile Payments
  - Affective analysis
  - Mobile coupons
  - Position data analysis
  - Big Data analysis
  - Statistical analysis
  - Mobile test automation

- **Client needs**
  - We want to try a new campaign to draw customers into our new shops.
  - We want to utilize digital data for coming up with new marketing tactics.
  - Information technology is changing rapidly, and we want to start off by experimenting with it and which of the latest technology is suitable for our company.
  - We want to cut the cost of system upgrades.
ABeam Consulting is engaged in various CSR activities, which are mainly divided into environmental activities and social contribution activities.

**Environmental Activities**

ABeam Consulting is participating in the Challenge 25 national initiative. In order for ABeam Consulting to become a “Real Partner” to the earth as well, each employee maintains a heightened awareness and is engaged in various activities directed at the realization of a sustainable society.

**Energy Management Activities at ABeam Consulting Offices**

ABeam Consulting conducts quantitative evaluations of management performance by utilizing “One-2 Five™”, a assessment tool for energy management which it offers to its clients. Using this tool, a 13.5% reduction in energy consumption per square meter of floor area compared to FY 2008 was achieved in FY 2010.

**Environment Awareness Activities / Environment Education**

In order that each employee will not only learn about the environment but also become active in environmental activities, ABeam Consulting conducts environmental education through e-learning. Starting from FY 2010, environmental awareness surveys have been conducted of all employees to raise employee awareness, and environmental activities are planned for the following year based on the results of this survey.

**ABeam Eco Day**

Mt. Fuji Clean-up and Removal of Non-native Plants  
Since FY 2007, ABeam Consulting, with the cooperation of the NPO Mt. Fuji Club, has been engaged in the collection of general and industrial waste that has been illegally dumped, and in the removal of non-native plants from the base of Mt. Fuji.

Mitohama Beach Clean-up  
ABeam Consulting has been engaged in the clean-up of Mitohama Beach in Japan since 2006. In addition to cleaning up the beachfront, this activity has led to the promotion of waste recycling and to the conservation of the wild habitat for various sea creatures.

**Social Contribution Activities**

**Education Assistance for Developing Countries**

ABeam Consulting is committed to the concept of education as a vital investment toward creating the future, and has become the first Japanese corporate sponsor of “Room to Read”, a program which has been providing educational opportunities to developing countries since 2008. To date through Room to Read, ABeam Consulting has donated schools, libraries and bookmobiles to Nepal and Vietnam and provided scholarships to female students. In addition to donations and grants, many ABeam Consulting’s employees are utilizing the business skills they have acquired through consulting activities in social contribution activities.

**Great East Japan Earthquake Recovery Efforts**

ABeam Consulting is assisting in the recovery efforts in the wake of the Great East Japan Earthquake which struck on March 11, 2011. The CSR Department, in cooperation with the projects being conducted in the affected areas, is promoting efforts, including fund-raising activities, that reflect the feelings and hopes of all employees. ABeam Consulting intends to continue these activities in the future.

**Team ABeam**

Team ABeam is the sailing team sponsored by ABeam Consulting. The team is currently aiming to compete in the Olympics Games.
