

## Microsoft Dynamics AX

**Powerful. Agile. Simple.**

**Microsoft Dynamics AX** is the ERP solution for enterprises that provides a **purpose-built foundation across five industries**, along with **comprehensive, core ERP functionality** for financial, human resources and operations management. It empowers your people to anticipate and embrace change so your business can thrive. All of this is packaged in a single global solution giving you rapid time to value.

### Built for your industry

Meet your business requirements easily with purpose-built capabilities for five industries in a single enterprise resource planning (ERP) solution.

Our global network of partners has extended this powerful foundation with packaged solutions and specialized services tailored to specific industries.

This unique approach delivers increased value faster, especially for global businesses that span more than one industry.

Microsoft Dynamics AX combines a rich set of core capabilities with an innovative approach to enterprise resource planning (ERP). Together, they enable your people to work more effectively and your organization to rapidly change to meet emerging opportunities.

---

### Comprehensive ERP capabilities

Microsoft Dynamics AX delivers powerful ERP software capabilities that support operational efficiency in all key functional areas, including:

- Financial management
- Business intelligence and reporting
- Sales and marketing
- Procurement and sourcing
- Supply chain management
- Project management and accounting

- Human capital management
- Global risk and compliance
- Environmental sustainability
- Country-specific capabilities

Microsoft Dynamics AX 2012 is a single, powerful enterprise resource planning (ERP) solution that is simple to learn and use so you can deliver value faster, take advantage of business opportunities, and drive user involvement and innovation across the organization.
