

Comes in more than 40 country-specific versions

- Supports many highly specific industries with powerful solutions created by Microsoft partners
- Gets you up and running fast

Microsoft Dynamics NAV (formerly Navision) delivers **comprehensive business management functionality**, from financials to your supply chain to manufacturing and more. It connects the many moving parts of your organization, giving you better visibility into and control over what's going on in your business. And it supports highly specific industries with powerful solutions created by Microsoft partners.

Microsoft Dynamics NAV enables you to make smart decisions that have a direct impact on your bottom line—increasing margins and improving your cash flow. Simple to learn and use, Microsoft Dynamics NAV works with your existing technology and scales as you grow to deliver long-term value.

A proven solution that's easy to adapt and connect

For nearly 30 years, Microsoft Dynamics NAV has delivered the capabilities, performance, and ease of use that power more than 84,000 diverse businesses in over 40 countries. It provides **comprehensive core business management functionality**, including sales, marketing, financials, reporting, supply chain management, and more. Easy to adapt, extend, and connect, Microsoft Dynamics NAV has enabled a global network of partners to create many powerful solutions that can meet the needs of small and midsize businesses across a wide range of highly specific industries and vertical businesses.
