

## **C\_FIORDEV: SAP Certified Development Associate - SAP Fiori Application Developer**

### **Course Outline**

#### **Description**

The "SAP Certified Development Associate - SAP Fiori Application Developer" certification exam verifies that the candidate has the required knowledge in the area of SAP Fiori application development as it pertains to the Developer consultant profile. This certification builds on the basic knowledge gained by a developer from formal SAP Education training and preferably refined by practical experience within a SAP Fiori application development project team in a mentored role. This is an entry level certification.

#### **Course Duration**

180 Min

#### **Delivery Format**

Classroom, Virtual Live Classroom, Hybrid

#### **Course Fee**

#### **Notes**

To ensure success, SAP recommends combining education courses and hands-on experience to prepare for your certification exam as questions will test your ability to apply the knowledge you have gained in training.

You are not allowed to use any reference materials during the certification test (no access to online documentation or to any SAP system).

#### **Topic Areas**

Please see below the list of topics that may be covered within this certification and the courses that cover them. Its accuracy does not constitute a legitimate claim; SAP reserves the right to update the exam content (topics, items, weighting) at any time.
