C_TSCM42: SAP Certified Application Associate – Production Planning & Manufacturing with SAP ERP 6.0 EHP7

Course Outline

Description

The certification "SAP Certified Application Associate - Production Planning & Manufacturing with SAP ERP 6.0 EHP7" verifies the knowledge in the area of Production for the consultant profile. This certificate proves that the candidate has a basic understanding within this consultant profile and can implement this knowledge practically in projects. The SAP Certified Application Associate can contribute to the success of the planning and implementation phases of the project in a mentored role and would typically have a maximum of three years' experience in the solution area. Project experience should not be prerequisite for a competent and well-trained candidate to pass this exam.

Notes

To ensure success, SAP recommends combining education courses and hands-on experience to prepare for your certification exam as questions will test your ability to apply the knowledge you have gained in training.

You are not allowed to use any reference materials during the certification test (no access to online documentation or to any SAP system).

Topic Areas

Please see below the list of topics that may be covered within this certification and the courses that cover them. Its accuracy does not constitute a legitimate claim; SAP reserves the right to update the exam content (topics, items, weighting) at any time.
