

EWM110: Basic Customizing in SAP EWM

Course Outline

Course announcements

This course is relevant for Industry 4. Now / Industry 4.0. Industry 4.0 is about industrial transformation using new digital technology that makes it possible to gather and analyze data across machines and business systems – enabling faster, more flexible, and more efficient processes to produce higher-quality, individualized goods at reduced costs.

This course provides you with the opportunity to define and set the mandatory configuration required to customize the implementation of SAP EWM. Instructor-led discussions and hands-on exercises will enable you to see the results of your configuration settings.

Course Duration

5 Days

Delivery Format

Classroom, Virtual Live Classroom, Hybrid

Course Fee
