Goals

This course will prepare you to:

- work on authorizations and security on the SAP HANA Platform.
- Audience
- Security Administrator
- System Administrator

Content

- The aim of this course is to prepare the student to work on authorizations and security on the SAP HANA Platform. The course initially covers system level security including Network and Communication security and Data Storage encryption, then it focuses on user management, authentication, authorizations, and auditing. Specific exercises are proposed, about LDAP Group authorization, User Groups, Authorization trace.
- Concepts of application development are also introduced since they are required to properly work on authorization roles in SAP HANA.
