

S4F60: SAP Central Finance Overview

Course Outline

Course announcements

SAP Central Finance is a specific deployment option for gathering accounting data from SAP ERP systems and Non-SAP Systems into one central SAP S/4HANA system.

This course provides an overview of the concept, the basic architecture and key scenarios that SAP Central Finance covers. You will be able to explain the value proposition but also the business benefits of this solution. All that puts you in a position to validate if the solution fits to your / your customer's business requirements.

This course contains several instructor demonstrations to better understand replication or reporting capabilities.
